

# MAINTENANCE-FREE CONSTRUCTION

**Flush cover design** enhances overall battery performance, maintenance, safety, and convenience

**Fortified posts, straps, & welds** resist vibration damage, maximize current transfer

**Enhanced crystallization of Power-Perform™ plates** provides more power-per-pound

**Short-protector separators** have thicker backweb material that prevents plate-to-plate shorts

**Ultra-pure demineralized electrolyte** precision filled to exacting levels for extended life

## Power-Perform™ Plates

- Full-frame positive and negative plates prevent life robbing electrical shorts from exposed wire
- Maximizes power and energy storage capacity

## Experience The East Penn Advantage

The A<sup>3</sup>™ Advanced-Cubed precision-focused manufacturing approach ensures the process behind the technology delivers critical quality at each stage of battery production. Deka batteries are supported by A<sup>3</sup> manufacturing to optimize the life, power, and durability of the battery's design and performance.

All Deka batteries are made with the most advanced computerized equipment in order to make the very best product. These batteries undergo stringent testing and quality control checks to ensure dependability. All internal components are made from the finest raw material resources. These raw materials are tested by the latest equipment for purity, quality, and performance.

A<sup>3</sup> Advanced-Cubed technological features have been incorporated throughout the entire battery design to deliver trusted reliability, longevity, and performance beyond expectation.
