More Power on the Green.
Less Maintenance In-Between.

Key Features and Benefits of the Deka PROMASTER Series of Golf Car Batteries.

- **Heavy-Duty Deep Cycle Service**
  High-density plates and reinforced grid design withstand continual deep cycling

- **Power-Boost Technology**
  Optimizes current paths and ionic power flow to maximize performance

- **Electrical Short Prevention System**
  Protects power-producing components from life-robbing electrical shorts

- **Rugged vibration resistant construction**
  Reinforced internal design withstands heavy-duty use

- **Premium glass mats**
  Protect battery’s ability to store energy (less recharging)

- **Less watering, less maintenance design**
  - Large reservoir and ultra-pure electrolyte optimizes water utilization.
  - Special alloy and separator material reduces water consumption.

- **Outdoor-tough polypropylene case and cover**
  Resist breakage to protect equipment and extend service life
Pro Master Golf Car batteries are built with more deep cycle power for longer times on the green. Durability enhancements, high-density components, and an electrical short protection system ensure less maintenance in-between times of demanding use. Special manufacturing features significantly reduce time-consuming battery maintenance and frequent watering while delivering the industry's most trusted performance.

Integrated “twist-and-release” vent cap “quick fill” system releases vent caps in a single motion design, making maintenance a snap.

Ergonomic lift handles reduces the risk of slippage. Designed for easier installation.

### FOOTNOTES:

Unless otherwise noted all batteries are:
- Black Cover/Black Case
- Charcoal Grey Cover and Case
- Low maintenance - Low antimony grids
- Includes handle
- Flush manifold vented cover
- Peak performance capacity
- Offset post w/ horizontal hole, stainless steel 5/16” bolt and hex nut
- Offset post w/ vertical stainless steel 5/16” stud and hex nut
- Molded-in offset SAE post and vertical 5/16” NEG., 5/16” POS. stainless steel studs and hex nuts

**TERMINAL SELECTIONS**

- **G** with 5/16” Stainless Steel Nut and Bolt
- **O** with 5/16” Stainless Steel Nut

**PART NO.**  | **20 AH CAPACITY** | **5 AH CAPACITY** | **MINS. DISCHARGED** | **@ 75 AMPS** | **@ 56 AMPS** | **@ 25 AMPS** | **VOLTS** | **WEIGHT (lbs.)** | **MINS. CHARGED** | **@ 75 AMPS** | **@ 56 AMPS** | **@ 25 AMPS** | **VOLTS** | **MAXIMUM OVERALL DIMENSIONS** | **FOOTNOTES** |

One lifting handle shipped per full pallet of 6-volt and 8-volt golf car batteries

For gas engine golf cars:
- 426G  | 560CA          | 450CCA         | 55 RC | — | — | 12 | 27.5 | 8½ (222) | 6½ (171) | 8 (203) | 17,22, G

All weights are approximate.

All batteries are wet.

Vent Cap Information: All batteries are shipped with quick release one-quarter turn gang vent caps. To order individual vent caps on batteries, add a “V” suffix i.e., GC15V, etc.

All above types have microporous polyethylene envelope separators with glass mat (except 426G).

426G battery has microporous, polyethylene envelope separators.

All batteries manufactured in polypropylene cases.

All ratings conform to B.C.I. specifications.

### TERMINAL SELECTIONS:

- **G**: with 5/16” Stainless Steel Nut and Bolt
- **O**: with 5/16” Stainless Steel Nut

**TERMINAL SELECTIONS**

- **G**: with 5/16” Stainless Steel Nut and Bolt
- **O**: with 5/16” Stainless Steel Nut

**TERMINAL SELECTIONS**

- **G**: with 5/16” Stainless Steel Nut and Bolt
- **O**: with 5/16” Stainless Steel Nut

### FOOTNOTES:
