

MARINE/RV AGM PREMIUM TECHNOLOGY

Advanced Power Solution For Today's Marine and RV Needs

MAGNAPOWER®

Marine AGM batteries deliver the perfect combination of marine starting, cycling, and deep cycle power. Maximum starting and accessory power is ideal for live-wells, GPS systems, stereos, hazard lighting, and any other item that plugs in or turns on.

Plus their proven AGM design delivers 2x the durability and dependability with 20x the vibration resistance of conventional designs. That means these batteries resist the roughest wave-pounding vibration or the worst road conditions. You can depend on this premium AGM technology to deliver an advanced power solution for today's marine and RV needs.

Premium maintenance-free power

Delivers optimized starting, cycling, and deep cycle service

20x more vibration protection*

Sustains battery's high performance capabilities over time

2x the cycle life*

Powers more electronics longer withstanding accessory load demands

Spillproof design

Provides added safety in wet environments and more protection for user and expensive equipment

Awesome Durability

Withstands demanding conditions like wave-pounding vibration or extensive travel

** Above and beyond conventional designs*
