

MARINE/RV DEEP CYCLE

DEEP CYCLE POWER

A Deeper Look into True Deep Cycle Service

MAGNAPOWER®

Marine & RV Deep Cycle batteries deliver the long, slow discharge of power necessary to run trolling motors, heavy marine accessory loads, or demanding RV house power. Built-in protection against deep discharge damage provides added resistance against the rigorous wear of continual deep cycle use, such as extended trolling or travel. These batteries also deliver moderate power for starting.

More fish-finding, trolling and accessory power

Designed for the long, slow discharges of deep cycle service

Rugged vibration resistant construction

Reinforced internal design withstands wave-pounding vibration

Built-in protection against deep discharge damage

Heavier plates and fiberglass mat resist negative effects of demanding deep cycle use

Stainless steel terminal and SAE post

Corrosion-resistant with dual terminal connections

Convenient handle

Significantly improves ease of transportation and installation
