

**ADVANCED
GENERATION[®]
TECHNOLOGY**

ULTIMATE[®]

The **ULTIMATE** in All Weather Starting Protection

The technology behind today's vehicles is changing faster than anyone could have ever imagined. Along with these new vehicle designs comes the need for batteries that are made better than ever. Today's batteries are being called upon to not just deliver power, but to deliver the right power solutions.

The Ultimate line of **Advanced Generation** batteries is built with the powerful maintenance-free design, ultra-premium performance, and all weather starting protection that discriminating drivers don't just want – they demand for their vehicles.

Durability has been systematically engrained into this advanced generation design to deliver dependable power in the toughest conditions. In extreme service where ordinary batteries fail, Ultimate batteries provide optimized starting power with extended battery life.

As the next generation of cars, LTVs, APVs, SUVs, and other similar vehicles require more and more from their battery, offer your customers the **Ultimate** high-powered solutions from the Ultimate battery line.

ULTIMATE Features

All Weather Starting Protection

- High cranking power ensures dependable starts in cold weather
- Reinforced internal components resists the corrosion acceleration of higher temperature conditions

Heavy-Duty Power-Perform® Plates

- Full-frame + and - plates prevents life robbing electrical shorts from exposed wire
- Longer life in temperature extremes
- Withstands severe service demands
- Maximizes power and energy storage capacity

Experience the East Penn Advantage

The A³™ Advanced-Cubed precision-focused manufacturing approach ensures the process behind the technology delivers critical quality at each stage of battery production. ULTIMATE batteries are supported by A³ manufacturing to optimize the life, power, and durability of the battery's design and performance.

ULTIMATE AGM SERIES Features

- Electrolyte suspension system enables a spillproof design
- Special glass mats protect internal components and prevent shorts
- Optimized component compression provides extra vibration resistance

- Batteries are maintenance-free calcium grids, except where noted
- Batteries manufactured in polypropylene cases & covers, except where noted
- Batteries manufactured in black cases & covers, except where noted
- SAE & DIN automotive posts used, unless noted
- Weights are approximate
- CA rating @ 32°F is approximation for comparison only
- 20 HR CAP rating is "nominal"
- CCA and RC ratings conform to B.C.I. specifications unless noted

FOOTNOTES:

- Absorbed Glass Mat technology (AGM)
- Centerline terminal posts
- Dual terminal, universal design
- Includes handle
- Includes top adapter
- Flush manifold vented cover
- CCA listed is an EN rating
- Venting Elbow Supplied
- For height with adapter add 7/8" (22mm)
- "Non-spillable" as defined by DOT (Department of Transportation) definitions
- "Non-spillable" as defined by ICAO (International Civil Aviation Organization) and IATA (International Air Transport Association) definitions
- If battery is used in on-highway vehicles equipped with two-way radios (such as taxis, police, and emergency vehicles), marine applications, off-highway use, and other non-automotive usage, free warranty replacement period will be 6 months and 3 months in full electric vehicle use

- If battery is used in on-highway vehicles equipped with two-way radios (such as taxis, police, and emergency vehicles), marine applications, off-highway use, and other non-automotive usage, free warranty replacement period will be 18 months, free replacement warranty is 12 months in deep-cycle use and 3 months in full electric vehicle use

PROPOSITION 65 WARNING: Battery posts, terminals and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. **WASH HANDS AFTER HANDLING.**
