Conventional automotive batteries can be extremely intimidated by the power demands of today’s vehicles – falling short of delivering critical dependability and performance. Cars, trucks, SUVs, and other passenger vehicles have more electronics than ever before.

Intimidator automotive batteries are especially designed to handle factory installed electronics to anything that plugs in or turns on, and still deliver dependable starting power. With almost 2x the endurance* in severe service and 2x the cycle life*, these batteries are equipped for the toughest conditions and the most intense electrical power demands.

Intimidator automotive batteries are also ideal for tuner cars or off-road vehicles, offering superior power for high-performance equipment and a high-impact design for rugged, back road adventures.
Intimidator® AGM Solutions for Intimidating Battery Needs

Intimidator is a pioneer brand in the development of the form, fit, and function of AGM battery technology. It has been tested and proven to best meet the criteria of the automotive industry.

ADVANCED DURABILITY DESIGNS
- Fortified posts, straps, and welds resist vibration damage
- Maximize current transfer over life of battery

POWER-PERFORM® FULL-FRAME POSITIVE & NEGATIVE PLATES
- Better withstands severe service demands
- Prevents life-robbed electrical shorts from exposed wire

ENHANCED ELECTROLYTE SUSPENSION SYSTEM
- Absorbs more electrolyte, protects internal components
- Micro-porous glass separators prevents acid spills and terminal corrosion

AUTOMOTIVE INTIMIDATOR® AGM BATTERIES

**FOOTNOTES:**

- Black cover / Gray case
- Absorbed Glass Mat Technology (AGM)
- Dual terminal, universal design
- Includes handle
- Includes height adapter, if needed

**Experience the East Penn Advantage**

East Penn’s A™ Advanced-Cobed precision-focused manufacturing approach ensures the process behind the technology delivers critical quality at each stage of battery production. INTIMIDATOR batteries are supported by A™ manufacturing to optimize the life, power, and durability of the battery’s design and performance.

**PROPOSITION 65 WARNING:** Battery posts, terminals and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. WAS HANDS AFTER HANDLING.
